

### BSD600 Ascent

We offer BSD Punchers from Microelectric Systems in Australia. BSD punchers have been the most popular semi-automated puncher in forensic and prenatal testing laboratories for decades. There are a few models available.

The BSD600 Ascent semi-automated bio-sample puncher represents a complete design update, building on the proven form, function, and performance of the BSD600 series. The result is an outstanding product with customers given the freedom to select the features most suited for their needs.

With an integrated touch screen interface, you are provided a greater user interaction. The new BSD software brings versatility and flexibility to a wide range of laboratory applications.

Model	Model No. Prefix
BSD600 Ascent	BSD6004

BSD600 Ascent
